User Story:

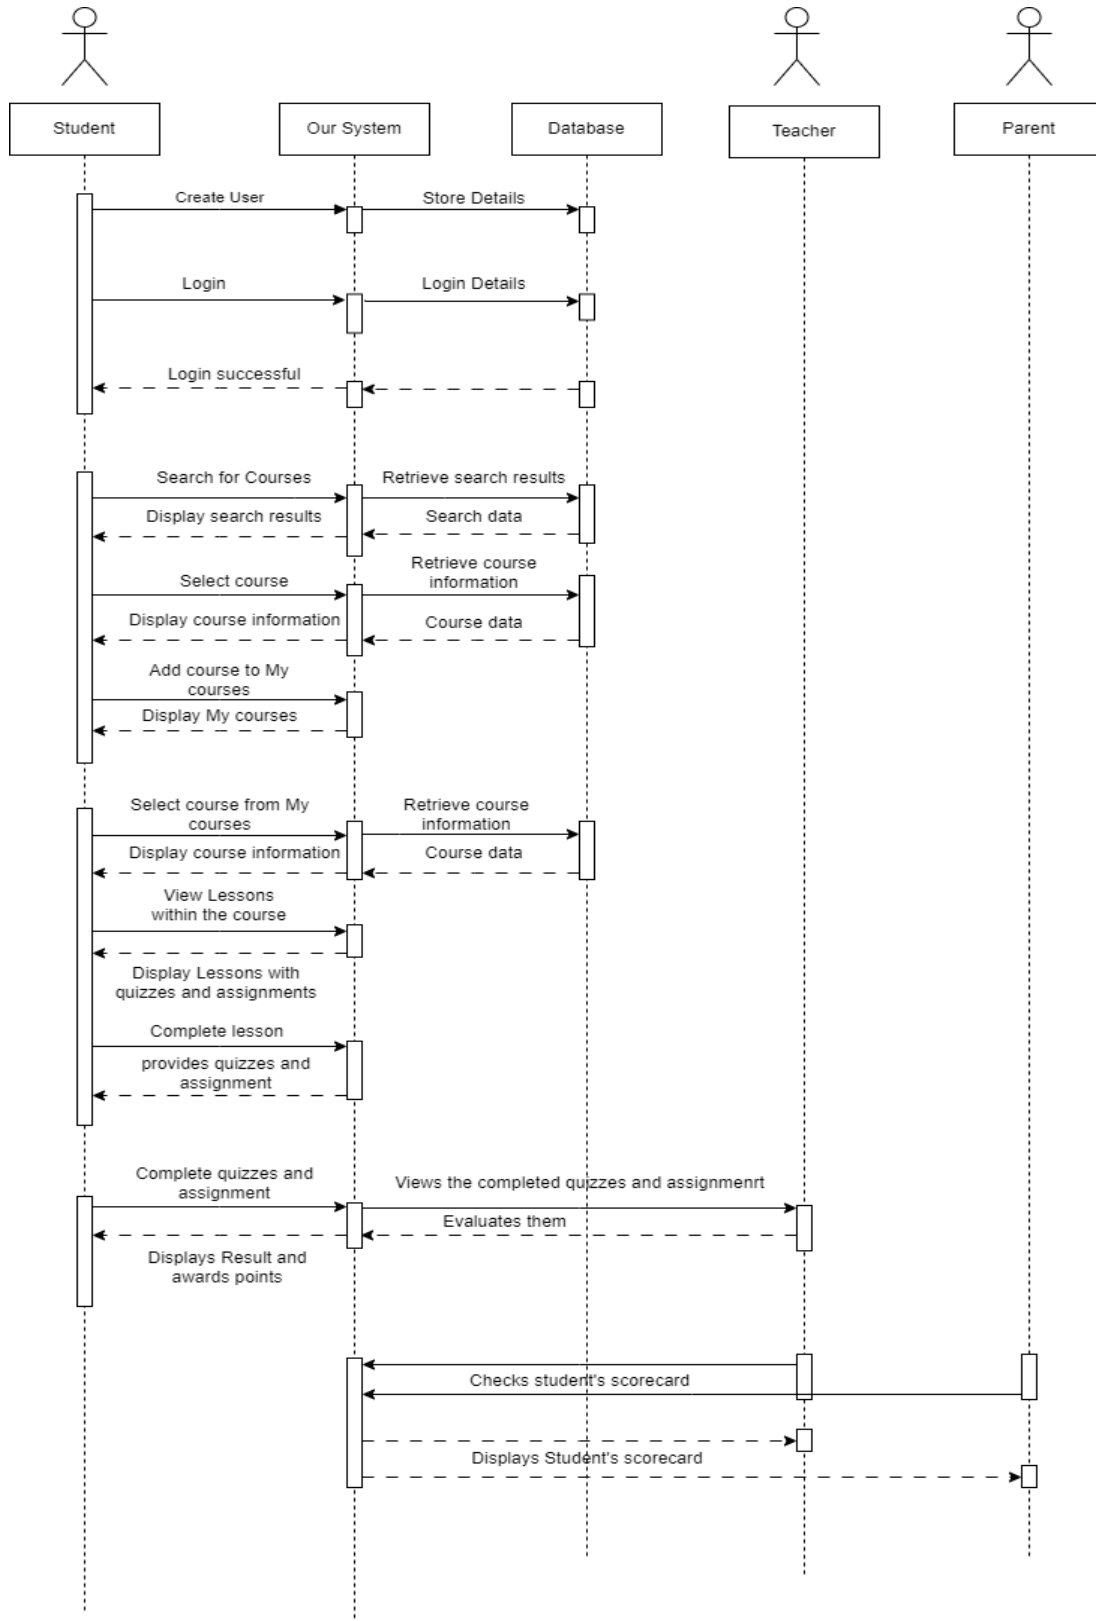

"As a student, I want to be able to easily access and search for course materials on the smart education website, so that I can quickly find the resources I need to study and complete my assignments. Additionally, I want to be able to submit my assignments through the website and have a teacher review and provide feedback on my work, so that I can improve my understanding of the course material and receive personalized guidance on my progress. Furthermore, I would like to have a gamified learning experience that makes learning fun and engaging, with features such as badges, rewards, and progress tracking that motivate me to keep learning and improving my skills.
